

Benefits of PGAA's Fractional Ownership model:

- Get all the freedom, joy and adventure of flying - at a fraction of the cost
- Easy access to airplanes - with your own set of keys, you just schedule and go
- Take charge of your own flying destiny - as a shareholder, you help determine the future of the organization
- Become part of a great group of local pilots with similar interests - fly alone or participate in PGAA social activities
- PGAA's economic fundamentals make for a sound investment
- We make flying affordable—allowing you to make the trips you always wanted to make

Cost

Our fractional ownership model and low overhead makes flying convenient and affordable.
